

PCT Formalities [Advanced]

Goal-oriented Guide to the Formal Requirements

Topics

Formalities actions contributing to:

For administrators
and legal assistants

- Reducing filing defects, reducing administration during national phases
- Fixing problems during search, unusual problems
- Improving quality and speed of patentability opinions
- Increasing value of application for applicant
- Smoothing national entry, including entry before EPO

Your speaker

Pete Pollard
European & Dutch Patent Attorney,
European Designs & Trademark Attorney,
Fireball Patents, Eindhoven (The Netherlands)

Aims and objectives

This advanced seminar aims to enhance the understanding of PCT formal requirements by discussing them in relation to specific goals. PCT can be used in many different ways. By explaining why each option is chosen, participants gain an in-depth appreciation of their contribution to the goals of the applicant, and the possible benefits and risks of each option.

Goals covered include reducing filing errors and defects, reducing administration during the national phases, fixing problems during search, improving the quality and speed of the patentability opinions, increasing the value of the application for the applicant, fixing unusual problems, and smoothing national entry.

Participants will have the opportunity to raise questions on all aspects of the procedure as it applies during the international phase and on entry into the national/regional phase.

Who should attend?

- Administrators
- Legal Assistants
- Formalities Managers
- Paralegals

with a basic understanding of PCT administration and formalities who wish to widen and deepen their knowledge.

Event information

- US Patent Formalities
Amsterdam, 16 - 17 October 2019
Course No. 1910145

Your speaker

Pete Pollard
European & Dutch Patent
Attorney, European Design &
Trademark Attorney, Fireball
Patents, Eindhoven

Originally from the UK, Pete has lived in the Netherlands for 30 years. After 5 years in-house at ASML, he moved to the private practice DeltaPatents in 2007, dividing his time between patent work, management and training in European and PCT law. As partner, he was responsible for the procedures and functioning of their formalities group. He was one of the original tutors when DeltaPatents started training patent administrators, and passed the first exam himself in 2011 to become a Certified Formalities Officer (NL). He was also one of the first tutors to teach administrators at the EPO as part of their EPAC program. In 2017 he left DeltaPatents to start his own firm, Fireball Patents, providing cost-effective patent services to SME's and startups.

Documentation

Delegates will receive a course material folder containing comprehensive documentation provided by the speaker, which will be a valuable source of reference for the future.

Your Benefits

- An in-depth understanding of PCT formalities, and how their actions contribute to the goals of the applicant.
- The opportunity to discuss complex issues with the expert.

Day 1: 9 am - 5 pm

Review of the PCT system

- Main formalities steps in the PCT system
